

The Knoxville Whig  
Knoxville, Tenn., August 21, 1867.

REAR RAILROADS.—The following are the rear railroad transfers registered in the office of the County Clerk for the week ending August 19th, 1867:

E. N. Wright to Noble Johnson, lot in Knoxville for \$250.

A. N. Rosh to John Tarlin, lot in Knoxville for \$500.

P. H. Cardwell to F. A. Schnick, tract of land in Knoxville for \$1,100.

Anna Chavers to P. H. Cardwell, lot in Knoxville for \$1,800.

C. W. & E. B. Crozier to David Groves, lot in Knoxville for \$150.

C. W. & E. B. Crozier to Henry Hickman, lot in Knoxville for \$300.

W. B. A. Ramsay to Hugh Boggs, lot in Knoxville for \$300.

PAROLE.—We are gratified to meet in this city our old friend and comrade, Col. Albert S. Bayless, of Nashville. Col. Bayless is known to thousands of our Tennessee Union soldiers as an officer of that gallant and efficient regiment, the 9th Tennessee Cavalry, whose reputation it is of a brave soldier as upheld by the flag of the Union. This is saying a great deal, but no more than every one will say who witnessed his splendid gallantry in the engagement in which the rebel partisan chief, John H. Morgan, was killed, and with every battle in which he participated.

The Colonel is in East Tennessee as Agent of the North American Life Insurance Company. He informs us that he will visit Greeneville, Jonesboro' and other towns in this division of the State, for the purpose of appointing agents of the Company he represents, he being the general agent of this State. We feel assured he will receive a cordial welcome from his old friends and comrades in arms. We know nothing of the character of the Company he represents, never having gone into the insurance business, but we commend Col. Bayless to the aid of all parties as a man of integrity and veracity, and one who is an gentleman as to his brave.

A SAD PICTURE.—A widow or children suddenly left without protection or provider, dependent upon the efforts of friends who are themselves needy, or upon the charity of strangers, for the bare necessities of life, is a sad sight. The Knoxville Life Insurance Company affords facilities for providing against such calamity, as will be seen by advertisement elsewhere, or as can be more fully explained to any who will call on the Agent of the Company, Dr. R. W. Cummings, at his office, No. 14, Gay street, August 17.

X-L.—The scapes manufactured by Colgate & Co. excel all others. They are the best purifiers known, and should have a place in every house. No inferior or impure article leaves the manufactory. As a consequence, no family considers its supplies complete until they include a box of Colgate's soap.

MESSERS. STUART, PETERSON & Co. are one of the leading stove manufacturing firms of Philadelphia. Their wares have a wide-spread celebrity, and give great satisfaction wherever used. The firm are now putting into market a stove-wonder, called the "Barley Sheaf," (burns either wood or coal) which threatens to eclipse everything else in its way, so numerous and excellent are its merits.

As is always the case with really good inventions, the Barley Sheaf is already being imitated, a fact which the trade and all interested should be advised of. No other stove possesses the peculiar features of the "Barley Sheaf." For sale by Wm. Colman & Co., and Cruze & Adney, Knoxville, Tenn.

THE MASON & HAMILTON ORGAN, after many improvements and modifications, has now reached the highest degree of perfection in construction, and that modernness of cost that brings it within the reach of many who could not afford the expense of a good piano. No musical family in prosperous households should fail to possess one of these beautiful instruments, which will prove at once an ornament to the room, a means of education to the young people, and an unfailing and inexhaustible resource in social and solitary hours.—Boston Evening Voice.

"DON'T BE FOOLISH."—You can make Six Dollars from Fifty Cents. Call and examine an invention recently made for everybody. Or a sample sent free by mail for five cents, which will be returned by R. L. Wolcott, 170 Chatham Square, New York.

TEACHERS STATE ASSOCIATION.

THIRD ANNUAL SESSION.

At the residence of M. E. STEWART, Knoxville, Tenn., August 14th, 1867.

The Association convened at 10 o'clock, A. M., the President, Rev. P. S. Fall, of Nashville, being absent. The Rev. Mr. Humes, Vice President, 2d District, took the chair and called the meeting to order.

Prayer was offered by Rev. N. Bachman.

The minutes of the proceedings at the last meeting in Nashville, Nov. 15th and 16th, 1866, were read by the Secretary.

Judge Mills, of Nashville, on behalf of the Executive Committee, made some remarks in regard to the action and labor of said Committee, and read several letters from gentlemen in the State expressing their sympathy with the society in its work of promoting the cause of education with all the people of the State.

A motion was made by Dr. Pearna, and the same carried, that in the absence of the Treasurer, M. C. Wilcox, be appointed Treasurer pro tem.

It was moved and seconded, that the chair appoint a committee of three to report names for officers for the coming year. Judge Lackey, Judge Mills and Prof. Wilson were appointed on said committee.

Dr. Hughes made a few remarks relative to the absence of some of the speakers, which would cause a change of programs.

On motion of Judge North, the society adjourned until 9 o'clock P. M.

The Association reassembled at the appointed hour.

President Humes called for the reading of the previously proposed amendments to the Constitution.

On motion of Prof. Wilson, the first, to omit the following clause of Art. V, viz: "And loyal to the Government of the United States," was laid on the table.

The second, to amend by new article, viz: "That there be an annual fee of one dollar to be paid by each member of the Association," was adopted unanimously.

Judge North then delivered an address of welcome. He spoke of the establishment and maintenance of a complete system of free schools for all the children of the State. This education, he thought, should be mental, moral and physical. He referred to the fact of our small attendance at the meeting, as evidence of the need of just such an Association in the State. He gave a cordial greeting to the members, and encouraged them to earnest and more diligent efforts.

Judge North was followed by Dr. Pearna in his relation to Teaching. In his able production he illustrated his theme variously, and in an instructive and interesting manner.

The subject of the "Tennessee School System" was then taken up. General Eaton, Senator House and others were called upon. Senator House addressed the meeting, giving some interesting statistics on the length of school terms and appropriations, provisions for the support of the same by different States. He gave notice that on the morrow he would present for the consideration and approval of the society amendments to the present school law.

Dr. Pearna moved that this subject be taken up to-morrow morning. Carried.

Rev. Mr. Drake moved that Dr. Crawford deliver his lecture at 7½ o'clock, as previously announced.

On motion, the Association adjourned to 7½ o'clock, P. M.

Association adjourned pursuant to adjournment. General business to be brought before the Association, President Humes introduced S. P. Crawford, M. D., of Greeneville, in accordance with previous announcement, delivered a lecture on "Physiology of the Brain," claiming that the proper education of man consisted in the harmonious development of his mental, moral and physical powers; that there are systems of schools all over the land for the development of the mental powers, but that the system for the thorough education of the whole man is incomplete.

On motion, the Association adjourned to meet at 9 o'clock to-morrow morning, August 19th.

THOS. W. HUMES, President pro tem.  
M. C. WILCOX, Secretary.

**THE NORTHERN PAPERS ARE HAVING A GREAT DEAL OF SPORT OVER THE FEAR WHICH THE LOCAL LEADERS OF GOVERNOR BROWNLOW'S SUPPOSED GREAT STANDING AMONG THE DETROIT TRIBUNE SAYS:**

The dreadful Brownlow militia of Tennessee, which has been represented as swarming in every highway like locusts of Egypt, and everywhere overawing the Conservatives and committing innumerable senseless acts of violence in the State, numbered exactly 1,500!

Capt. Kirk and Col. Blackburn have gone to Jackson to inquire into the outrages committed there on election day. It is said that a party of ruffians had actually prepared fire-balls, soaked in turpentine, to set fire to the court-house when the militia were quartered.

**The President and Mrs. Surratt.**

Not only has the President been proved entirely mistaken in his assertion that he never saw the recommendation to marry in Mrs. Surratt's case, but the very words he used after reading it have transpired, and were these: "We must be protected from female assassins as well as male assassins."
